

Harefield Hospital Outpatients Clinic is part of London's leading private diagnostic and treatment facility for patients with heart and lung related conditions.

As part of Harefield Hospitals' Specialist Care, the private outpatients clinic benefits from all the expertise, experience and equipment that come with being an integral part of the UK's largest specialist heart and lung centre. The clinic gives our private patients quick and convenient access to world-class specialist diagnostics and healthcare.

Patients are seen by our team of experts, who are able to call upon the hospital's resident teams and use their unrivalled lab and imaging facilities to give a rapid diagnosis, allowing patients to begin their treatment as quickly as possible.

To make an appointment, call
01895 221 402 or if you're a GP, use
our dedicated GP line on **01895 828 551**

Our clinic services are now available with
extended evening and weekend hours.
Ask us for more details.

RB&HH Specialist Care provides private heart and lung care at Royal Brompton and Harefield Hospitals. We offer expert diagnosis and world-leading treatment to patients from across the UK.

Rapid Diagnostic Service

For patients requiring a range of tests to help diagnose a heart or lung condition, Harefield Hospital offers same day or short notice appointments where tests can typically be done in one visit. In most cases, you will receive the results on the same day as your appointment.

- Rapid access cardiac clinic
- Echocardiogram
- Electrocardiogram (ECG)
- Chest X-Ray
- 24-hour, 48-hour and 72-hour holter monitoring (ECG tape)
- 24-hour blood pressure monitor
- Exercise stress test
- A range of blood tests
- Complex Echocardiogram (including stress echo)
- CT scanning with a 64-slice CT scanner or the advanced Dual Source Flash scanner
- Cardiac magnetic resonance (CMR)
- Lung function tests

To make an appointment, call **01895 221 402** or if you're a GP, use our dedicated GP line on **01895 828 551**.
